🏗️ Part 1: System Overview

What is This System?

This is a **Care Home Management System** designed to digitally manage all aspects of residential care facilities. It tracks residents, staff, medications, compliance, and daily operations in one centralized platform.

> 🎯 **Main Purpose:** Replace paper-based records with a digital, secure, and accessible system that ensures quality care and regulatory compliance.

noman

Core Modules

Module	Function	Primary Use
Dashboard	Quick overview display	Alerts, statistics, quick actions
Resident Management	Resident profile management	Care plans, documents, medical history
Medication (eMAR)	Medicine tracking	Dosage, timing, stock management
HR/Staff Management	Staff records maintenance	Rota, training, payroll, documents
Compliance & Audits	Regulatory checks tracking	Safety inspections, certifications
Incident Reports	Accident logging	Falls, injuries, incidents
User Management	Login and permission control	Security and access management

📊 Part 2: Dashboard Module

Dashboard Components

Component	Icon	Functionality
Search Bar	🔍	Type any resident or staff name to instantly open their profile
Alerts Bell	🔔	Shows critical notifications: low stock, overdue tasks, incidents. Click to view details
Quick Stats Cards	📈	Displays total residents, occupancy rate, staff on duty, pending tasks
Occupancy Chart	📊	Visual graph showing occupied vs. empty rooms
Recent Activity	📋	Latest actions: "Medication given", "Incident reported", etc.
Quick Actions	⚡	Shortcuts: "Add Resident", "Report Incident", "View Rota"

noman

> ⚠️ **Important:** Red alerts require urgent action. Yellow warnings should be addressed promptly.

👥 Part 3: Resident Management

Creating a Resident Profile

Click `+ Add Resident` on the dashboard

Fill in basic details: Name, DOB, Room Number, Admission Date

Click `Save`

Profile is created; you can now add additional details

noman

Resident Profile Sections

1. About Me (Personal Information)

- **Personal Details:** Name, age, gender, contact information
- **Emergency Contacts:** Family member phone numbers
- **Medical History:** Allergies, chronic conditions
- **Preferences:** Food likes/dislikes, hobbies, routines

Buttons: `Edit` `Save`

2. Care Plan

- **Daily Care Needs:** Bathing, dressing, mobility support requirements
- **Care Goals:** "Improve walking distance", "Reduce anxiety levels"
- **Review Dates:** When the next care plan review is scheduled

Buttons: Add Care Plan Update Plan Print PDF

3. Medication (eMAR)

- **Medicine List:** All medications with name, dosage, timing
- **MAR Chart:** Record of when each medicine was administered
- **Stock Levels:** Remaining tablets/bottles count

Buttons: GIVE REFUSE Add Medicine View History

noman

4. Daily Log

- **Daily Notes:** Staff observations and comments
- **Food/Fluid Intake:** Amount eaten and drunk
- **Mood/Behavior:** Resident's emotional state
- **Activities:** Activities participated in

Buttons: Add Entry Filter by Date

5. Risk Assessment

- **Fall Risk:** Likelihood of falling
- **Choking Risk:** Swallowing difficulties
- **Skin Integrity:** Pressure sore risk
- **Mental Capacity:** Decision-making ability

Buttons: Assess Risk Update

6. Documents

- **Upload Documents:** Scanned papers, certificates, photos
- **Categories:** Medical reports, consent forms, identification
- **View/Download:** Access and download stored documents

Buttons: Upload View Delete

7. Handover Notes

- **Shift Handover:** Information passed from one shift to the next
- **Important Updates:** "Resident unwell", "Family visiting tomorrow"

Buttons: Add Handover Mark as Read

noman

8. PBS Plan (Positive Behavior Support)

- **Behavior Triggers:** What causes the resident to become upset
- **De-escalation:** How to calm the resident
- **Strategies:** Behavior management techniques

Buttons: Create Plan Update

9. Goals & Outcomes

- **Set Goals:** "Walk 10 steps daily", "Attend 3 activities per week"
- **Track Progress:** Monitor goal achievement
- **Outcomes:** Record results and achievements

Buttons: Add Goal Update Progress

10. Consent Forms

- **Medical Consent:** Permission for treatments
- **Photo Consent:** Permission to take photographs
- **Activity Consent:** Permission for outings and activities

Buttons: Upload Consent View

noman

💊 Part 4: Medication Module (eMAR)

What is eMAR?

Electronic Medication Administration Record - A digital MAR chart that replaces paper-based medication records.

Conducting a Medication Round

Open **Medication** section from sidebar

Select time slot: Morning (8am), Afternoon (2pm), Evening (6pm), Night (10pm)

Medicine list appears for each resident

After administering medicine, click GIVE

If resident refuses, click REFUSE and enter reason

noman

Medication Screen Buttons

Button	Color	What Happens
GIVE	Green	Medicine administered. Stock automatically reduced. Timestamp recorded.
REFUSE	Red	Resident refused medicine. Reason mandatory (e.g., "Sleeping", "Nausea")
Add Medicine	Blue	Add new prescription. Enter name, dosage, frequency, start date.
Edit	Yellow	Modify existing medicine details (dosage, timing)
Discontinue	Red	Stop medicine (requires doctor's order)
Stock Alert	Orange	Shows when stock is low. Reminder to reorder.

Print MAR	Gray	Download monthly MAR chart as PDF

> ⚠️ **Important:** For **PRN** (as needed) medications, entering a reason is mandatory before administration.

noman

👔 Part 5: Staff/HR Management

Creating a Staff Profile

Open **HR Management** section

Click `+ Add Staff`

Enter details: Name, Position, Start Date, Contact

Click `Save`

noman

Staff Profile Sections

1. Personal/Employment Information

- **Basic Info:** Name, address, phone, email
- **Job Details:** Position, department, salary
- **Contract:** Full-time/Part-time, contract end date

Buttons: `Edit` `Save`

2. Documents

- **DBS Certificate:** Background check document
- **Qualifications:** NVQ, diplomas, certifications
- **Contract:** Employment contract
- **ID Proof:** Passport, driving license

Buttons: Upload View Delete

3. Training

- **Mandatory Training:** Fire safety, first aid, safeguarding
- **Completion Status:** Completed/Pending/Expired
- **Renewal Dates:** When training needs to be renewed

Buttons: Add Training Mark Complete Upload Certificate

noman

4. Rota/Schedule

- **Weekly Rota:** Who is on duty when
- **Shift Patterns:** Morning (8-4), Evening (4-12), Night (12-8)
- **Days Off:** Green = OFF, Red = Working

Buttons: Edit Rota Assign Shift Print Rota Swap Shift

5. Payroll/Timesheet

- **Hours Worked:** Total hours in a month
- **Overtime:** Extra hours calculation
- **Salary:** Monthly pay calculation

Buttons: View Timesheet Export

6. Performance

- **Appraisals:** Performance reviews
- **Feedback:** Manager feedback
- **Goals:** Staff development goals

Buttons: Add Review View History

noman

✅ Part 6: Compliance & Audits

What is Compliance?

Meeting regulatory requirements - CQC, Health & Safety, Fire Safety, etc.

Compliance Checks

Check Type	Frequency	What is Checked
Fire Alarm Test	Weekly	Fire alarm functionality
Emergency Lighting	Monthly	Emergency lights operational
Water Temperature	Daily	Hot water at safe temperature (max 43°C)
Fridge Temperature	Daily	Food storage safe (1-5°C)
Equipment PAT	Yearly	Electrical equipment safety
Gas Safety	Yearly	Gas appliances certified

noman

Compliance Buttons

Button	Function
Add Check	Record new compliance check
Mark Complete	Mark check as complete with timestamp

Upload Evidence	Upload certificate or photo as proof
Action Required Filter	Show only overdue checks (RED alerts)
Export Report	Download compliance report as PDF (for CQC inspections)

⚠️ **Red Alert:** If any check is overdue, complete it immediately. CQC inspections may identify this as non-compliance.

noman

📋 Part 7: Incident Reports

When to Create an Incident Report

- Resident fall
- Injury (cut, bruise, etc.)
- Medication error (wrong dose, missed dose)
- Behavioral incident (aggression, wandering)
- Equipment failure (hoist broke, bed malfunction)
- Safeguarding concern (suspected abuse)

noman

Creating an Incident Report

Open **Incident Reports** from dashboard or sidebar

Click `+ New Incident`

Fill in form: Incident Type, Date & Time, Location, Description, Witnesses, Action Taken

Click `Submit`

Manager receives automatic notification

Incident Report Buttons

Button	Function
New Incident	Create new incident report
View Details	View full details of existing incident

Add Follow-up	Update with actions taken after incident
Upload Photo	Upload photo of injury or damage (evidence)
Mark Reviewed	Manager has reviewed (approval)
Export PDF	Print incident report (for insurance/legal)
6-Month Overview	Chart showing incident trends over time

✓ **Best Practice:** Complete incident reports within 24 hours. Inform family if it's a serious incident.

noman

🔐 Part 8: User Management

User Roles and Permissions

Role	Access Level	What They Can Do
Admin	Full Access	Everything - Add/Edit/Delete residents, staff, records. Change system settings.
Manager	High Access	Manage residents and staff. View reports. Cannot delete records.
Staff/Carer	Limited Access	Only care plans, medications, daily logs. No financial or HR data.
Nurse	Medical Access	Medications, care plans, medical records. No HR data.
Client/Family	View Only	View only their family member's profile. Cannot edit.

noman

User Management Buttons

Button	Function
Add User	Create new user account
Edit Permissions	Change user access rights
Reset Password	Reset user password

Deactivate	Temporarily disable user account
Delete User	Permanently remove user account (admin only)
Activity Log	View history of user actions

🔒 **Security:** Give each user only the access they need. Keep passwords strong (8+ characters, numbers, symbols).

noman

🎯 Summary: How the System Works

Daily Workflow Example

Morning (8am): Login → Check dashboard for alerts → Medication round (click `GIVE` for each medicine) → Write daily logs

Afternoon (2pm): Lunch medication round → Create incident report if needed → Review care plans

Evening (6pm): Evening medication round → Write handover notes for next shift → Complete compliance checks

Night (10pm): Night medication round → Final checks → Logout

noman

Key Points to Remember

- **Green Buttons** = Positive actions (Save, Give, Complete)
- **Red Buttons** = Negative/Delete actions (Refuse, Delete, Discontinue)
- **Blue Buttons** = Add/Create new records
- **Yellow Buttons** = Edit/Update existing records
- **Red Alerts** = Urgent action required
- **Yellow Alerts** = Warning, address promptly

How to Download This as PDF

Click the **"📥 Download as PDF"** button at the top-right corner

Print dialog will open

Select **"Save as PDF"** option

Choose file name and click **Save**

PDF will be downloaded!

> 🎉 **Congratulations!**
>
> You now understand the entire system. Every module, every button, every feature is clear.
>
> If you have questions, contact your administrator.
